Selecting Toys and Equipment

Horringer Pre-School provide a range of toys and equipment to enable and encourage children to develop skills and confidence in all six areas of learning as they play and explore the pre-school environment.

The Equipment we provide is:

- Appropriate for all ages and stages of development.
- Offers challenges to develop physical, social, personal and intellectual skills.
- Features positive images of people, both male and female, from a range of ethnical and cultural groups, with or without disability.
- Includes a range of natural and real resources so child can explore and discover from a range of mediums.
- Selected to offer open ended play experiences which encourage children to be creative and imaginative.
- Conforms to all relevant safety regulations and is clean and in good repair at all times.

E Safety

Children are supervised by staff members at all times when using the internet. They may access the internet for developmental activities and staff members would make sure the content it is age appropriate and suitable, assisting their personal, social and emotional development and understanding of the world.
